

Road Test Evaluation

This assignment puts you in the shoes of the driving examiner

Use the fresh information you now have on the rules of the road. It is time to put your licensed driver to the test.... literally.

Using the road test evaluation sheet you will role-play with your parent/guardian or mentor.

For fifteen minutes as they drive, you will use the test sheet to mark their skills on right and left turns, parking on a hill, backing into a spot etc.

Be strict but have fun! It should prove to be very enlightening. This will be a great experience for all those involved.

This assignment is worth 5 marks and your findings must be presented in session eight.
